

## 2023 Commercial Day of Education Instructor Application

Thank you for considering participating in our commercial day of education. We are planning a half day of mini-education sessions for all REALTOR members, of varying backgrounds/understanding of commercial real estate. Each education session will be 45 minutes, with instruction time and Q&A. At this time, we will only have nine education sessions available. Since this is our first year coordinating this event, our hope is to expand this program and its educational offerings in the future. Our goal is to have an assortment of commercial related topics, geared to either intro to CRE or for those REALTOR members with more commercial real estate knowledge. Following our educational sessions, we will be hosting a CRE trade fair and networking social. **\*Courses are not required to meet PA Real Estate Commission C.E. requirements.**
